## CHICAGO RESTLESS.

The Lumber Region Disturbed-An Uncer tain Feeling Prevalent.

CHICAGO, ILL., May 17.-A restless spirit pervades the Southwestern lumber region. This morning at 7 o'clock Twenty-second and the intersecting streets were lined with great crowds of men and boys. A decided stand was taken at the meetings of the strikers Saturday and sterday, and the promulgation of their determination to stay out and compel the bosses to capitolate had forewarned the police, and they were on hand in force early in the morning prepared to quell all demonstrations of violence. An extra squad of police officers patrolled the streets, preventing any large gatherings, dispersing the men and compelling them to keep moving. Several of the tems started up with small gangs of men and no trouble of any nature occurred

turing the first working hours of the day. A tour of the yards revealed the fact that not to exceed one-third of the men who were at work Saturday appeared at the yards this morning, having been intimi-dated by the rumor that the yards would

be raided by men from the stock-yards and other industries.

The Adams & Lake Manufacturing company resumed operations this morning. About one-half their regular force applied for places and were told to go to work. No trouble of any kind was experienced.

BOSTON, Mass., May 11.—At 4 o'clock yesterday evening Dr. Frank Palmer, one of the best known homeopathic physicians in this city, left his residence with his four-year old grandsen, of whom he was very fond, and took passage on the steamer John Brooks for Portland. When the little boy got tired his grandfather put him to bed. At about 10 o'clock Dr. Palmer, saying that the boy was seasek and must have fresh ser, carried him tenderly to the after feek. The child complained of cold and the doctor sent a watter for a blanket. A moment later Part Gaines, Ga , May J, 18.3.
